

香港珠寶玉石廠商會  
**Hong Kong Jewellery & Jade Manufacturers Association**  
Company Limited by Guarantee

**Membership Application**

**Application procedure**

Individuals or companies who wish to apply for membership (Full, Associate or Corporate) are required to fill out the relevant Application Form and return together with the necessary documents to the Association. After preliminary examination, basic information of the Applicant (company name, names of directors, contact persons, company address and telephone numbers) will be distributed by fax to all existing members for consultation purpose. Any member who objects to the application is required to give detailed reasons with concrete evidence (e.g. supporting documents on complaint about the applicant, court verdict & etc.) by "confidential" post to our Membership Department before the specified deadline. Should no objection be received by the deadline, it will be assumed that members agree to the application. If the objection received is valid, the case will be presented to the Council of Management for directors' voting, where simple majority (>50%) rules.

Membership applicants who will be participating as non-member exhibitors in overseas exhibitions organized by the Association will still be required to undergo product tests under the Quality Assurance Programme of the Association (mandatory for all non-member exhibitors in accordance with regulations of the Association). Applicants who fail the tests will have their applications suspended until they pass the product tests. In addition, applicants who are involved in legal disputes will also have their applications suspended.

Successful applicants (after vetting procedures) will be notified, issued with a Certificate of Membership and required to make payments for entrance and membership fees immediately.
